Hi Geoff,

Just wanted to give you an update. I did complete a public records request and received the requested information on 1/25/22. The request did not include much additional information regarding the site history; however, there are some water quality files that are in the Medford office that we will plan to review the next time we are out there. We did obtain an EDR report and are wrapping up summarizing the findings of the EDR and historical Facility records.

We would like to set up a call to discuss findings and registering in the cleanup program. Please let me know your availability the week of March 14-18.

Thanks,

Maureen

Hi Maureen.

I recommend you do a public records request. That way, you can specify exactly what records you are looking for from what programs and be sure that your request will be well coordinated and timely. To do a PRR, follow this link: [https://oregondeq.govqa.us/WEBAPP/\\_rs/\(S\(lh45lyfgfrg402db45ne1pfq\)\)/supporthome.aspx](https://oregondeq.govqa.us/WEBAPP/_rs/(S(lh45lyfgfrg402db45ne1pfq))/supporthome.aspx) click on "Submit a Public Records Request" then set up an account following the directions on the website.

Please let me know if you have any questions.

**Subject:** Former Westrock Facility - Records

Hi Geoff,

As we discussed last week for the path forward on the Former Westrock facility, we are working on compiling and summarizing all facility records to discuss with DEQ as the first step in the cleanup program. Records in the project file from DEQ consist of the file downloaded from the ECSI Summary Page. Could you please email any additional records to EAG or should I submit a formal FOIA request?

We are also working on the documentation for the voluntary cleanup program. Should we have any questions regarding this process, who should we reach out to directly?

Thanks,

Maureen
